

Field Notes: NSA Exclusion - Login Type 3

Problem statement 1: Network logins (login type 3) can be noisy. The detections are generally looking more for user endpoint logins and not so much just share accesses. Thus, we can add exclusions for login_type = 3.

Analytics Rules > Rule Exclusions

Exclusion name: Login Type 3 Exclusion

Exclusion description: Exclude first endpoint events when the login_type is 3

Condition: toNumber(login_type) = 3 && activity_type = "endpoint-login"

Specify Rules as seen in screenshot.

Create a New Exclusion

Exclusion Name

Login Type 3 Exclusion

Description (optional)

Exclude first endpoint events when the login_type is 3

Condition what to look for

Condition

toNumber(login_type) = 3 && activity_type = "endpoint-login"

Use any User entity Attribute or CIM fields to define your condition Check [Documentations](#) for syntax.

Scope Exclude from all analytics rules, or choose a rule or rule family to exclude when the condition is met.
